

TON THAT GIA HUY

Data Science Student - AI, Data & Backend

tonthatgiahuy160505@gmail.com | 0915932257 | Ho Chi Minh City | github.com/tonthatgiahuy16 | LinkedIn

PROFILE

Data Science student building Python APIs, document-retrieval prototypes, and data pipelines with FastAPI, Spark, Airflow, Docker, and SQL. Seeking an internship in AI application, data, or backend engineering.

EDUCATION

University of Transport Ho Chi Minh City - B.Sc. candidate, Data Science

2023 - 2027

GPA: 3.0/4.0

PROJECTS

CloudMentor AI - RAG API Prototype

2026 - Present

Personal project | Python, FastAPI, Chroma, PostgreSQL, Alembic, RAG

- Built an in-progress RAG API prototype with a modular PDF pipeline: Extract -> Transform -> Chunk -> Embed -> Index.
- Persisted embeddings in Chroma and propagated document_id, chunk_index, page, and source metadata for traceable retrieval.
- Added input validation and manual validation scripts; established a PostgreSQL document-registry foundation with Alembic migrations.

Big Data Pipeline - Social Media Sentiment Analysis

01/2026 - 05/2026

Coursework project | Python, Spark, Kafka, Airflow, HDFS, Docker, FastAPI

- Designed a multi-service Docker Compose pipeline processing 1.6M tweets through ingestion, HDFS, Spark, model inference, and FastAPI serving.
- Built a 7-step PySpark ETL workflow; reduced vocabulary by 22% and compressed storage 3x (238 MB to 79 MB) with partitioned Parquet.
- Improved throughput by 429% (222 to 1,176 records/sec) and selected Logistic Regression (0.88 AUC-ROC, 80.3% accuracy).

Employee Attrition Prediction

09/2025 - 12/2025

Coursework project | Python, Pandas, Scikit-learn, SMOTE

- Analyzed 4,653 employee records using SMOTE and a stratified 80/20 split; compared 3 classifiers and selected Random Forest (82.4% accuracy, F1 = 0.726).

TECHNICAL SKILLS

Programming & APIs: Python, SQL, C#, FastAPI, REST APIs

Data Engineering: Apache Spark (PySpark), Kafka, Airflow, HDFS, Docker, Git, Parquet

AI/ML & Retrieval: RAG, Chroma, Spark MLlib, Scikit-learn, TF-IDF, Word2Vec, SMOTE

Databases: PostgreSQL, SQL Server, MongoDB

LANGUAGES

English: B2 (CEFR)
